ABOUT SHARMIN INTERNATIONAL

Welcome to Sharmin International, Oman's premier provider of comprehensive construction and consultancy services. We specialize in civil road work, residential building, commercial building work, villa work MEP, landscaping, interior fitouts, annual maintenance contracts, and civil and road construction. Our consultancy division offers design services (architectural, structural, MEP, BIM, tender preparation, analysis & evaluation), supervision services (civil, MEP, contract administration, procurement), and survey services (GIS mapping, land, drone, GRP surveys). We also trade high-quality building materials and provide heavy equipment rentals. Committed to quality, innovation, and client satisfaction, Sharmin International delivers projects on time and within budget, building a brighter future in Oman.

VISION

our vision is to be the leading construction company renowned for excellence, innovation, and sustainability. We aim to build inspiring and enduring structures that shape the future, enhance communities, and leave a positive legacy for generations to come. Through our commitment to quality, safety, and integrity, we strive to exceed our clients' expectations and set new standards in the construction industry.

MISSION

Our mission is to provide the best service to our customers. We aim to help visitors understand the purpose of our business and how we can help them. We believe in providing high-quality services that are easy to use and understand. Our team is dedicated to making sure that our customers are satisfied with our services.

Sharmin International specializes in residential building construction services in Oman, providing end-to-end solutions for your home development projects. Our experienced team handles design, planning, and construction with a focus on quality, safety, and efficiency. We ensure compliance with local regulations and industry standards, delivering beautifully crafted and durable residential buildings. Choose Sharmin International for reliable construction services that turn your vision of a perfect home into reality in Oman.

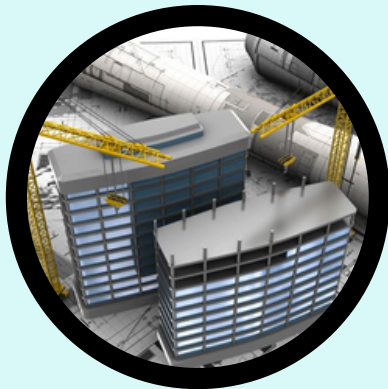

CONSULTANCY SERVICES

Design Services

Architectural Design

Sharmin International specializes in architectural design services in Oman, offering innovative and bespoke solutions for your building projects. Our expert team combines creativity with technical expertise to deliver designs that are both aesthetically pleasing and functional. We ensure each project aligns with local regulations and industry standards. Partner with Sharmin International to bring your vision to life with exceptional architectural solutions in Oman's dynamic landscape.

Structural Design

Sharmin International provides expert structural design services in Oman, ensuring robust and innovative solutions for your construction projects. Our experienced team delivers designs that prioritize safety, functionality, and compliance with industry standards. We focus on creating efficient and resilient structures tailored to your needs. Choose Sharmin International for reliable structural design services that support your vision and stand strong in Oman's evolving construction landscape.

BIM Services

Sharmin International offers advanced BIM (Building Information Modeling) services in Oman, providing detailed, data-rich models for efficient project planning and execution. Our expert team enhances design accuracy, coordination, and collaboration throughout the construction process. By integrating cutting-edge technology and industry standards, we ensure optimal project outcomes. Partner with Sharmin International for innovative BIM solutions that drive success and streamline construction in Oman's dynamic market.

Tender Preparation

Sharmin International offers expert tender preparation services in Oman, streamlining the bid process for construction and development projects. Our experienced team provides comprehensive support, from documentation and compliance to strategic proposal development. We ensure your submissions are precise, compelling, and aligned with industry standards. Trust Sharmin International to enhance your bidding success and navigate the competitive landscape with confidence in Oman's dynamic market.

CONSULTANCY SERVICES

Supervision Services

Civil Supervision

Sharmin International provides expert civil supervision services in Oman, ensuring your construction projects adhere to design specifications and industry standards. Our experienced team oversees all aspects of construction, from site inspections to quality control, guaranteeing timely and efficient project delivery. With a focus on safety and regulatory compliance, Sharmin International ensures your projects meet the highest standards of excellence in Oman's dynamic construction landscape.

MEP Supervision

Sharmin International offers specialized MEP (Mechanical, Electrical, and Plumbing) supervision services in Oman, ensuring seamless integration and performance of all MEP systems. Our skilled team manages the installation, inspection, and testing processes to maintain high standards of quality and compliance. With a focus on efficiency and safety, Sharmin International ensures that your MEP systems function optimally and meet industry regulations throughout your project.

Contract Administration

Sharmin International provides expert contract administration services in Oman, managing all aspects of contract execution to ensure smooth project delivery. Our team oversees compliance with contractual terms, handles documentation, and resolves disputes efficiently. We ensure that all project milestones and obligations are met, maintaining clear communication and documentation throughout. Trust Sharmin International for reliable contract administration that supports your project's success and aligns with industry standards.

Procurement Advisor

Sharmin International offers expert procurement advisor services in Oman, guiding you through the acquisition of materials and services for your projects. Our team provides strategic advice, supplier selection, and contract negotiation to ensure cost-effectiveness and quality. We streamline the procurement process, aligning with industry standards and project requirements. Choose Sharmin International for reliable procurement solutions that enhance project efficiency and success in Oman's competitive market.

CONSULTANCY SERVICES

Survey Services

GIS Mapping

Sharmin International specializes in GIS (Geographic Information System) mapping services in Oman, providing precise spatial analysis and data visualization for your projects. Our expert team uses advanced technology to create detailed maps and geographic data that support planning, decision-making, and project management. Trust Sharmin International for accurate GIS mapping solutions that enhance project outcomes and streamline operations in Oman's dynamic landscape.

Land Survey

Sharmin International offers professional land survey services in Oman, delivering accurate and detailed measurements essential for your projects. Our expert team utilizes advanced technology to provide precise topographic, boundary, and construction surveys. We ensure compliance with local regulations and industry standards, supporting informed decision-making and successful project execution. Choose Sharmin International for reliable land survey solutions that meet your needs and enhance your project's success.

Drone Survey

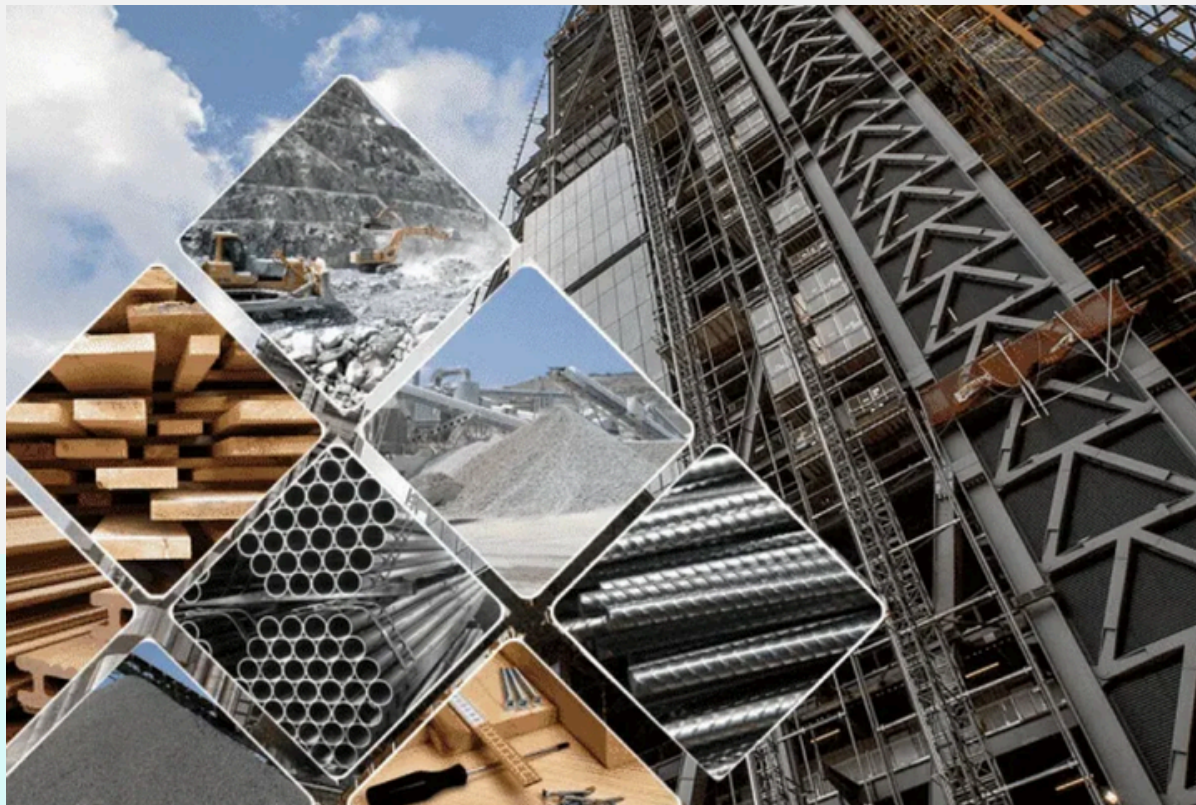

Sharmin International provides cutting-edge drone survey services in Oman, offering high-resolution aerial imagery and precise data for your projects. Our advanced drone technology captures detailed topographic and geographic information, enhancing accuracy and efficiency. We deliver comprehensive survey reports and analysis, ensuring compliance with industry standards. Trust Sharmin International for innovative drone survey solutions that streamline your project planning and execution in Oman's dynamic environment.

GRP Survey

Sharmin International offers specialized GRP (Glass Reinforced Plastic) survey services in Oman, focusing on the assessment and inspection of GRP structures and materials. Our expert team provides detailed evaluations to ensure integrity, performance, and compliance with industry standards. We deliver comprehensive reports and recommendations to support maintenance and project planning. Choose Sharmin International for reliable GRP survey solutions that ensure the quality and durability of your structures in Oman.

Trading Services

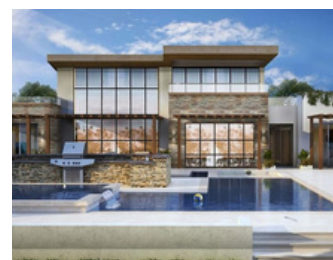

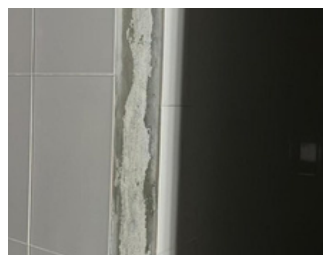

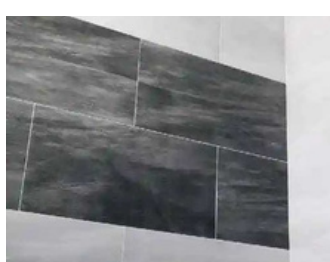

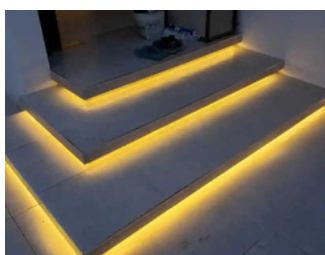

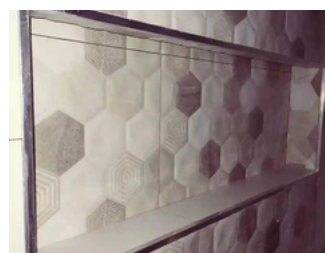

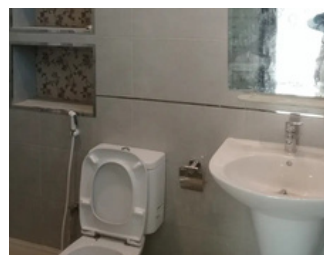

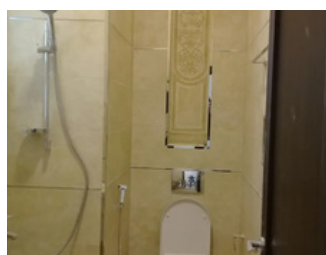

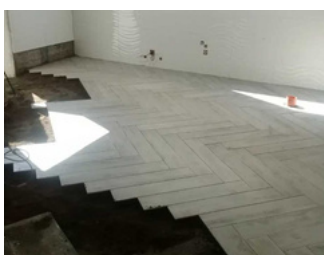

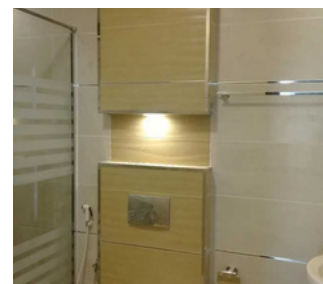

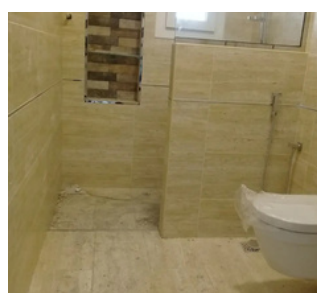

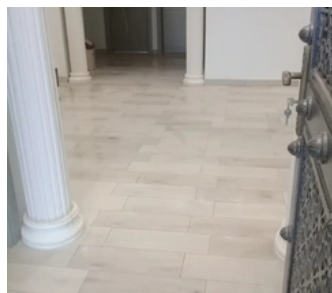

Sharmin International offers comprehensive consultancy and trading services in construction, specializing in high-quality building materials. Operating in Oman, we deliver tailored solutions to enhance project efficiency and meet industry standards. Our extensive range includes top-grade materials essential for construction success. Partner with Sharmin International for reliable guidance, innovative strategies, and premium building supplies. Your vision, our expertise—building excellence together in Oman's dynamic construction landscape.
